Nautical Association of Australia Inc.

The Nautical Association of Australia Inc. was founded in 1968 and is a voluntary non-profit organisation dedicated to the preservation and publication of the maritime history of Australasia and its adjacent seas. The NAA publishes the high quality quarterly colour journal *THE LOG*, typically of 72 pages, with recent maritime news, articles on maritime history, research and personal recollections. It also publishes books of merit on maritime subjects relevant to the region.

THE LOG has been published in Australia since 1954, initially by the Australian and New Zealand sections of the World Ship Society (a UK organisation) and since 1968 by the Nautical Association of Australia. It is the only publication dedicated to recording the maritime history of the region and is distributed by subscription and through specialist outlets. For further details see website.
